

DIRE WOLF™ BOURBON

Santa Fe, NM, provides a unique environment in the production of distilled spirits. At 7000 ft. above sea level in the high desert of the Southwest, **Aztec Spirits** is able to take advantage of cool nights and warm dry days. This creates a natural complexity in its spirits not found in those from many other climate zones.

Aztec Spirits is dedicated to providing a quality product and maintaining strict quality controls and high standards of excellence. Because of these standards toward servicing our customers we are able to meet their changing needs and demand for world class products.

Aztec and **Dire Wolf** vodkas offer a smooth clean taste that can be enjoyed straight on the rocks or mixed in popular cocktails.

Aztec bourbon and our new **Dire Wolf** premium bourbon are aged and processed in oak barrels to enhance their flavors, chill-filtered, and then bottled, ready for the market. The result is a smooth and balanced bourbon that sips well and also mixes favorably at the bar.
