

What Makes Us Successful

Logistics: We have multiple direct contracts with Ocean Couriers as well as an In-House NVOCC, North Star Container to aid in shipping options.

Origination & Product Mix: Our origination program covers the entire Midwest allowing us to offer many different products with various specifications as required by customers.

Quality: Since we are originating direct from the source and doing all freight, we are able to monitor quality first hand and provide what is needed by the customer.

Payment Options: We can offer an array of financing options from direct payment to letter of credit or deferred payment methods.

What We Value

Loyalty: We are looking to develop long lasting, mutually beneficial relationships with customers and vendors.

Flexibility: This business is very dynamic. We take pride in our flexibility to identify opportunities and solve problems.

Collaboration: We take pride in working closely with customers and other vendors to find ways to better serve all parties in the value chain.
