

ORGANICS

YAAX offers Organic Fruit and Vegetable ingredients including Juice Concentrate, Puree, Frozen and in Dried form. Availability of organic products may be limited depending on the variety and season. The best time to contract for these products is just prior to the harvest season. Please contact us for your organic needs.

HEALTH BENEFITS

Some of the products supplied by YAAX have been proven to offer health benefits that may include; improvement in Eye Health, Heart Health, Oral Health, Hypertension relief, Anti-Inflammatory relief, Cholesterol Lowering, Detoxification, and DNA Protection. At YAAX, we believe in supporting "Health, From the Inside Out".

NUTRITIONAL SUPPLEMENTS

YAAX Fruit and Vegetable Ingredients lend themselves to applications in supplements. The Ingredients come in both liquid and dry forms. If you are looking for a Super Fruit for labeling or for the specific functional benefit, we can supply products to you.

NUTRACEUTICAL INGREDIENTS

YAAX offers products high in Flavonoids, Polyphenols, Antioxidants, ORAC and Anti-Adhesion levels. We offer custom blended specialty Fruit and Vegetable ingredients, both liquid and dry.

YAAX International is a supplier of Fruit and Vegetable Ingredients to industries such as, Beverage, Bakery, Confection, Dairy, Food Service, Main Meal, Retail and Pet Food. YAAX also supplies specialized processed fruit and vegetable ingredients in the Nutraceutical, Pharma, Cosmetic and Supplement industries.

Located in the Pacific Northwestern United States, YAAX is well positioned and experienced in exporting and importing products globally. The friendly and professional staff will use this experience to make your next product or project a success.

Whether it is New Product Development, Sourcing, Custom Manufacturing, Private Labeling, Consulting, or Trade Services, YAAX is eager to serve you.

JUICE CONCENTRATES

Featuring Coconut Water

YAAX specializes in 100% Natural Fruit and Vegetable Juices and Juice Concentrates for a variety of applications, including beverages, sauces, dressings, confection, desserts, bakery, and dairy. NFC Juices and Concentrates can provide excellent flavor, color, and identity of real fruit and vegetables in liquid form.

PUREÉS

Featuring Blackberry & Dark Sweet Cherry Purees

YAAX offers both Single Strength and Concentrated Fruit and Vegetable Purees. The All Natural Purees are available in varying brix levels. Applications include smoothies, beverages, snack bars, pastry fillings, and sorbets just to name a few. Purees not only provide great flavor and color, but also bring texture, viscosity, and nutrients.

FROZEN FRUITS & VEGETABLES

Fruits and Vegetables are harvested fresh from the farms and immediately processed and frozen to ensure the highest level of product quality and food safety – while allowing for an extended shelf-life. Pack options include IQF, Straight Pack/Block Frozen, and Sugar Pack; in both bulk and retail packages.

DRIED FRUITS & VEGETABLES

Featuring Fresh Dried Bing Cherries

YAAX offers Fruits and Vegetables dried in a variety of ways including sun dried, dehydrated, freeze dried, sweetened dried, and vacuum microwave. The wide array of dried options, with varying moisture levels, allows for use in many different applications including snacks, bars, trail mixes, cereal, and baked goods.

POWDERS

Featuring CranAdvantage™ Cranberry Powder

YAAX offers Pure Fruit and Vegetable Powders. While several processes are available, often the whole fruit and vegetable is used to extract the bioactive portion that contains the color, polyphenols, proanthocyanidins, and phytonutrients. In addition the Food & Beverage industry, powders can also be used in Cosmeceuticals, Nutraceuticals, Pharma, and Nutritional Supplements.

NATURAL COLORS

YAAX offers a line of U.S. produced Natural Colors that are extracted from Fruit and Vegetables in pure form without any residues or use of carriers. These Natural Colors are made without chemical extraction, are extremely intense in color, and are offered in both liquid and dry form. Due to the intensity of color, they are high in polyphenols and anthocyanidins.
