roasted, and sprouted!

“ For too long, nutrition has been bred out of our food. Suntava is excited to be part of the movement to cultivate foods that are naturally fortified from seed to table. ”

— **BILL PETRICH**, President, Suntava

We began with excellence, working from a special strain of Andean maize. And we kept improving it, meticulously cultivating by hand, year after year. The result? **A purple corn that's unsurpassed** in quality, consistency, and anthocyanin/antioxidant value.

WE MAKE IT EASY TO PARTNER ON MULTIPLE INGREDIENTS.

As a part of the Healthy Food Ingredients (HFI) family of companies, which includes SK Food International and Hesco, we're connected to an array of best-quality ingredients and expertise. In addition to Suntava Purple Corn, we offer grains, seeds, pulses, soybeans, and expeller oils, all processed to meet your unique application needs.

SUNTAVA PURPLE CORN™ IS NATURE'S HEALTHIEST HIGHEST ANTIOXIDANT CORN.

We continue to explore new strains and applications, fueled by our passion for nature, science, insight, and discovery. At Suntava, we're inspired to continue contributing to a more healthful way of living.

THINK OF THE POSSIBILITIES WITH PURPLE.

Suntava Purple Corn is Non-GMO Project Verified, gluten-free, Identity Preserved (IP), and available in conventional and Certified Organic. It's ideal for these applications, and we're open to exploring more:

PUREE

EXTRACT

SUNTAVA PURPLE CORN EXTRACT: THE BETTER ALTERNATIVE TO CONVENTIONAL CORN SYRUPS

Unlike corn syrups, Suntava Purple Corn Extract offers natural color and antioxidant/anthocyanin health benefits, with an inherently sweet, refreshing taste. Just for starters, it makes an excellent binder for energy and breakfast bars, popcorn, cereals, granolas, jellies, and jams. It's also a value-added ingredient for beverages.

Adding purple to your diet
can do amazing things to your
overall health.

— DR. TRAVIS STORK, host of the
popular "Doctors" TV show

TODAY'S HEALTH-CONSCIOUS CONSUMERS ARE LOOKING
FOR ENHANCED NUTRITION FROM THE FOODS THEY BUY.

SUNTAVA PURPLE CORN™ IS THE HEALTHFUL INGREDIENT THAT CAN SET YOU APART

Research shows that the anthocyanins found in
Suntava Purple Corn™ provide an exceptional level
of nutritional support and far-reaching benefits for:

- Heart / Cardiovascular Health
- Colon Health
- Healthy Blood Sugar Levels
- Brain Health
- Vision Health
- Anti-Obesity / Weight Management
- Antioxidant Defense System
- Healthy Inflammatory Response

BRILLIANT PURPLE

A DEEPER LEVEL OF HEALTH AND WELLNESS.

According to published research, the estimated
daily intake of anthocyanins is 12.5 mg/day.²

A 1 oz. serving of Suntava Purple Corn can **more than double** the current daily intake of health-promoting
anthocyanins. Independent research confirms that
Suntava Purple Corn:

- Is rich in antioxidants (anthocyanins) widely associated
with better health and well-being
- Ounce for ounce, has **more antioxidant power than
blueberries, acai berries, and pomegranate juice**
- Contains nearly **4x the level of anthocyanins as
blue corn**
- Delivers 15 – 20% **more of the eight essential amino
acids** as found in yellow corn

OUNCE FOR OUNCE,
MORE THAN TWICE THE
ANTIOXIDANTS OF BLUEBERRIES!¹

¹ Developed by the National Institute on Aging, ORAC (Oxygen Radical Absorbance Capacity) is the "gold-standard" for measuring the antioxidant potential of foods. ORAC scores are based on a serving size of 100 grams.

HIGHER ANTHOCYANIN INTAKE ASSOCIATED WITH IMPROVED CARDIOVASCULAR HEALTH.⁴

A 2013 study published in the journal *Circulation* reviewed the dietary habits of 93,600 women taking part in the Nurses Health Study found that young and middle-aged women with the highest anthocyanin intake had a reduced risk of myocardial infarction. Anthocyanin intakes for this study ranged from 2 mg – 35 mg per day.

If I could eat only one color per day, it would be purple. There is more data on purple than any other color right now.

— **DR. JAMES JOSEPH**, a neuroscientist at the USDA Human Nutrition and Research Center on Aging at Tufts University and co-author of *The Color Code: A Revolutionary Eating Plan for Optimal Health*

ENHANCE YOUR STORY

WITH THE FLAVOR, VISUAL APPEAL,
AND VALUE-ADDED NUTRITION
OF SUNTAVA PURPLE CORN™

**ANTHOCYANINS: ONE OF
NATURE'S MOST POWERFUL ANTIOXIDANTS.**

They prevent damage in our bodies from free radicals, which are like rust on a car. They're found in a naturally occurring pigment in fruits and vegetables that range in color from blue to violet to red.
