BIG CLAW WINE™

“The Perfect Wine with Lobster”

... and other shellfish too!

Maine Seafood and Trading Co. is committed to maximize your profits by providing complimentary products. That's why we offer Big Claw wine.

Big Claw is annually selected by a cohort of wine buyers, sommeliers, and wine lovers. The wine is blended after several sessions of pairing lobster with various wines to find the optimal combination. Big Claw's bouquet of stone fruits, ripe pears and key lime surrender gradually to the rich flavor of peach and apricots. Big Claw wine is more than capable of standing on its own merit, but also pairs beautifully with crab, shrimp, mussels and clams.

POS Cross Promotion— We work with international customers to provide sales systems designed to maximize sales and profits on *both* lobster and wine.

Events, Tasting and Promotions— If you would like to hold a 'tasting' or participate in a trade show, the maker of Big Claw can be present. We will help elevate you above your competition at your important sales moments.

Private Label for Stores, Hotels, etc.— We can set your seafood brand apart by offering Big Claw in your own private label. Private labeling Big Claw Wine is a creative way to separate you from your competitors. Moreover, with adequate notice we can work with you to produce select bottles for weddings, corporate events, etc.

Talk to Maine Seafood and Trading today if you are interested in offering Big Claw Wine. It's the “perfect wine with lobster” (and crab and shrimp and mussels and clams and...)
